

What is Transition Year?

Transition Year is an optional one year, school based programme between Junior Cycle and Senior Cycle. It is designed to act as a bridge, facilitating the smooth transition from the more dependent learning of the Junior Cycle to the more independent, self directed learning required for the Senior Cycle.

In St Patrick's, Transition Year offers students an opportunity to engage in independent, self directed learning, to develop general, technical and academic skills, and to mature and develop without the pressure of an examination.

Students get the opportunity to sample a wide range of subject areas and can make more informed choices about the kind of Leaving certificate programme they want to follow after the Transition Year.

Transition Year Information

Fees

The fee for TY in St Pats is €500. A Deposit of €250 must be paid at the time of acceptance and the balance must be paid in full (installments are accepted) before the 1st September.

(Foreign Trips will be paid in addition to the Transition Year Fee)

Transition year students will be assessed continuously over the year, using a credit based system. The rationale for this is as follows:

- It will increase student accountability
- It will reward the students who engage most with the programme
- It will provide a slightly more academic focus, ensuring students can integrate more easily back into 5th year.
