

Virtual Work Experience Week

Online Work Experience Opportunities

Working in an Office:

This is an interactive Work Experience that gives you a feel for what it is like to work in an office and to see the inner workings of a company. Meet and actively work with different departments on one exciting project, helping them to solve problems and to complete real-life tasks.

Irish Guide Dogs Virtual Work Experience:

At Irish Guide Dogs for the Blind we believe the students who participate in our TY Programme are potential future advocates for our Charity.

With this in mind, we have developed an interactive programme which aims to inspire students to consider a career with us or to support our work raising awareness and funds so they too can make a difference to others and change lives.

Application Form Available [Here](#):

UNICEF Online Work Experience:

Become empowered with the skills, knowledge, and strategies to be a powerful change-maker in your community. UNICEF offers young people the opportunity to participate in local activism through our week-long activism training programme. This is ideal for a Transition Year Work Experience Week or Volunteerism week. The course is normally held on Fridays in Dublin, from 9:30-4 pm. Due to Covid-19 and the restrictions this course is currently being delivered online over a one-week period.

Look into Law Programme:

The Bar of Ireland's "Look into Law" Transition Year Programme is an exciting initiative aimed at increasing students' awareness of the work of The Bar of Ireland and to encourage students to consider a career as a barrister. Students will be actively encouraged to get involved with tasks suggested each week and to share them with the other schools. Full details on how to do this will issue nearer the time. We will also be encouraging engagement over social media with photos and contributions but this will be voluntary.
